

The background features a vibrant, futuristic cityscape at night, with numerous skyscrapers illuminated in various colors like blue, purple, and red. The scene is overlaid with a complex digital grid of glowing blue lines and dots, creating a high-tech, data-driven atmosphere. A large, semi-transparent circular graphic is positioned in the upper right corner, partially overlapping the city and the grid.

# DEEP LEARNING

Deep Learning is the new buzzword in science and technology.

A technology with innumerable applications, Deep Learning is beginning to influence many aspects of our lives. When it comes to the field of video & image analytics, Deep Learning applications have grown rapidly in recent years, benefiting from sophisticated algorithms based on neural networks. Now, Hikvision's DeepinView Series Cameras and DeepinMind Series NVRs and Servers will lead the way in this new world of security technology by making invisible intelligence visible for users, and then putting that intelligence to good use.

And what can Hikvision's Deep Learning products do? Facial Detection is only the beginning. With analytics that take business solutions into the next century, and with automated alarm accuracy above 90%, this technology is a step above and beyond video security as we know it.

Hikvision's Deep Learning technology filters insignificant objects and movements in a scene that would trigger conventional alarm systems. Vehicle data gets recorded and shapes the database to perform numerous security functions. People Counting systems give businesses an edge in marketing and conversion rates.

Across the board, Hikvision's Deep Learning Solutions are adding value on multiple levels – today and tomorrow.

# ULTRA-LOW LIGHT

## DarkFighter & DarkFighterX

With the deepening of security awareness and the building boom of safe cities, high-quality video security has become a basic requirement. Since night hours make up almost half of the security recording, and since most crime happens at night, improving low-light video quality is the most critical problem in the video security industry today.

### DarkFighter – Stunning color video in near darkness

Featuring a large HD progressive scan CMOS sensor, Hikvision's DarkFighter Technology captures excellent color imaging in extremely dark environments – even down to 0.002 lux – and automatically switches to monochrome by removing the IR filter to boost sensitivity when illumination is lower than 0.002 lux. All the while, DarkFighter maintains superlative image quality.

### DarkFighterX – Dual-sensor imaging for full color images

DarkFighterX's technology is based on the retinal imaging that human eyes use to process color and brightness. This human-like technology features an innovative dual-sensor design – one sensor for IR imaging that guarantees image brightness, the other sensor for visible light that guarantees vivid color. These signals are then combined into one bright, full-color image.

# HIKVISION ACUSENSE TECHNOLOGY

A sense of safety is one of the most basic human needs, and that goes for both personal and property safety. And this is exactly why people install security systems in their homes and businesses.

Compared to conventional sensor-based alarm systems, a video-based security system that utilizes cameras has several advantages: the ability to watch events in real-time over the live feed, capture critical data around those events, and provide solid and accurate evidence for law enforcement.

AcuSense technology adds a touch of intelligence to Hikvision's popular cameras and video recorders, making them perfect for an accessible and intelligent security system. Based on deep learning technology, AcuSense helps you focus on human and vehicle events in two ways: alarms will only trigger when the preset type of intrusion takes place, and video footage is sorted by target-type categories for easier searching through recorded footage.

Select camera models equipped with AcuSense technology and the Live Guard function feature a strobe light and audio alarm, serving as virtual security guards to ward off trespassers and protect users from potential threats. Video footage is classified into human and vehicle categories for quick search and retrieval whenever needed.

Sophisticated, highly effective, and affordable, the AcuSense solution provides SMB owners and operators an intelligent and easy-to-use protection system for their property and assets, while helping resellers build a uniquely competitive go-to-market proposition.

The logo for ColorVu Technology, featuring the word "ColorVu" in a multi-colored font (red, orange, yellow, green, blue, purple) and "Technology" in a grey sans-serif font below it, all set against a dark blue, irregular shape.A graphic showing a clock face with "24 Hours" written inside, followed by a multiplication sign and the number "7", and the text "Colorful Imaging" to the right.

View in color,  
Even in darkness

# HIKVISION COLORVU TECHNOLOGY

Darkness provides cover for theft, trespassing, and other crimes. When incidents occur at night, dim, low-quality images from conventional cameras miss or lose critical details. Cameras with infrared LEDs are able to provide extra light for clearer image, but in black-and-white.

But now, imagine capturing vivid, colorful details – such as the color of people's clothing or of a car – even in total darkness. Hikvision ColorVu Technology makes this possible.

Hikvision ColorVu Technology enables front-end products to capture details in low light with three advantages: advanced hardware, superior ISP algorithm, and reliable quality control. ColorVu technology employs two specific breakthroughs in hardware technology: advanced lenses and powerful sensors. These lenses reach up to F1.0, allowing more light to enter and thereby increasing image brightness. Next, high-sensitivity sensors vastly improve the utilization of that light. The frontier ISP algorithm realizes precise color rendition to produce accurate colorful images. Moreover, active alignment technology guarantees the focusing performance of lenses in the mass production of ultra-high definition ColorVu products, resulting in superlative quality control.

Extreme light conditions are also taken into consideration in the design process. Some cameras are equipped with warm, natural-looking supplemental lighting. This way, when there is no light source whatsoever – even starlight or street lights – they can guarantee colorful imaging. For most scenes, the environmental light is bright enough for ColorVu cameras to render vivid color without supplemental lighting.

The ColorVu Technology logo, featuring the word "ColorVu" in a multi-colored font (red, orange, yellow, green, blue, purple) and "Technology" in a grey sans-serif font below it.

# HIKVISION HEATPRO VCA2.0

Any object with a temperature above absolute zero emits a detectable amount of infra-red (IR) radiation. Taking advantage of the differences in IR intensity between objects, thermal cameras make the invisible IR “visible” in the form of heat zone images. Therefore, thermal cameras “see” from different distances under virtually any light or weather condition, distinguishing people and vehicles from other objects.

The image reproduction of thermal cameras is not affected by lighting conditions - either extremely low light or even no light at all. And compared with imaging with visible light, thermal cameras are much less impacted by weather conditions such as fog, smog, rain and snow, so that they can work in virtually any environment, anytime.

HeatPro series thermal camera adopts VCA2.0 to produce reliable alarms for users. VCA 2.0 is an intelligent video content analysis technology based on deep learning algorithms, which detects targets and classifies them into human, vehicle and filters the others. With the 3-steps configuration, users can easily set up VCA rules to detect actions such as line crossing, intrusion, region entrance, and region exit with high accuracy.

Hikvision’s HeatPro series Bi-spectrum thermal cameras, comprised of turrets and bullets, provide professional protection with AI-enabled human/vehicles detection and classification, accurate temperature measurement for fire prevention and real-time visual and audible alarms. The cameras hit the target for cost and performance with a variety of applications in apartments, construction sites, warehouses, industrial parks, stores and more.

The logo for HeatPro, featuring the word "Heat" in a colorful gradient font and "Pro" in a white outline font, with a shield icon behind the "o".

Professional Protection Made Simple

# LIGHTFIGHTER

## 140 dB WDR

Hikvision is set to reach new heights in extremely high contrast imaging with the ultra-high 140 dB WDR “LightFighter” technology for exceptional, industry-leading visibility in brightly lit or high-contrast environments. The result of this cutting-edge advancement is crystal-clear, detail-rich images with true color reproduction in lighting conditions that would defeat conventional WDR technology.

The key to the performance of the LightFighter technology is the industry-leading WDR system that allows cameras to record greater scene details even where the intensity of illumination varies considerably, such as backlighting when very dark and very bright areas appear simultaneously in the field of view. The 140 dB WDR in the LightFighter offers 100 times more powerful enhancement than the conventional 120 dB WDR systems.

LightFighter is particularly suited to intense backlight situations, and is the ideal technology for cameras pointing towards windows and entrance doors.

# 4K

With the development of 4K technology quickly coming into focus, opportunities to use this technology in security will continue to grow. As a leading IoT solution provider with video as its core competency, Hikvision has paid close attention to the rise of 4K and has launched a total 4K system to harness this technology in the global security industry.

Without complementary 4K components, such as monitors and NVRs, 4K cameras cannot be used to their full potential, and therefore have little practical use in security applications.

By building a total system – complete with cameras, NVRs, etc. – Hikvision strives to provide a system that is more helpful and more useful to its customers. The Hikvision 4K system, which comes equipped with a variety of smart functions, satisfies the security industry's need for advanced analytics with ultra-high resolution video.

Recently, Hikvision has released an 8K camera which monitors large scenes over long distances. This one camera does the work that once required several cameras, thus reducing installation and maintenance costs.

# TANDEM VU TECHNOLOGY

As uncertainty in many aspects of life increases, people today have higher-than-ever expectations for security. Unforeseen incidents and risks continually challenge existing security systems. In many cases, conventional fixed-angle network cameras – with their limited field of view – cannot take in the full scene. And when they zoom in, they lose the original big picture. Incidents get missed and unexpected losses ensue. But there is an answer.

The new TandemVu technology features Hikvision's next-generation camera design, integrating multiple lenses in one unit to provide big picture and small details in tandem, which is a breakthrough in camera innovation.

Equipped with this technology, Hikvision's TandemVu PTZ Cameras maintain original, big-picture view even during pan, tilt, and zoom maneuvers. Users will see everything and miss nothing at any given instant, getting great situational awareness from the moment they set the camera up.

## Deeper Intelligence Beyond the Edge

- High performance and intelligent products with Deep Learning algorithms and high performance GPU
- The 2nd-generation DeepinView Series supports multiple algorithms in one device for a variety of scenarios. Additionally, it integrates multiple lenses to simultaneously capture sharp details and the big picture for extensive situational awareness.
- People counting, dual-lens people counting, multi-target-type detection, ANPR, vehicle appearance analysis, hard hat detection, facial recognition, perimeter protection, and queue management.
- DeepinView Series products are edge nodes in the AI Cloud architecture, focusing on multidimensional data collection and front-end intelligent processing.

Model	IDS-2PT9A144MXS-D/T2(1352/6)
Image	 DeepinView
Image Sensor	1/1.8" progressive scan CMOS
Max. Resolution	2560 × 1440
Video Compression	H.265+/H.265/H.264+/H.264/MJPEG
Min. Illumination	Panoramic Camera: Color: 0.002 Lux@(F1.0, AGC ON) Tracking PTZ Camera: Color: 0.0035 Lux@(F1.6, AGC ON)
WDR	120 dB
Lens	Panoramic Camera:5mm Tracking PTZ Camera:13mm to 52mm
FOV	Panoramic Camera:Horizontal FOV 54° Tracking PTZ Camera: Horizontal FOV 32° to 8°
Max. IR Range	40m
VCA	Multi-Target-Type Detection, Face Capture, Face Comparison
Frame Rate	50Hz: 25fps (2560 × 1440, 1920 × 1080, 1280 × 960, 1280 × 720) 60Hz: 30fps (2560 × 1440, 1920 × 1080, 1280 × 960, 1280 × 720)
Streams	3
Protection Level	IP66
Angle Adjustment	Pan: 0° to 210°, tilt: -15° to 22°
Operating Temperature	Outdoor: -40°C to 70°C [-40°F to 158°F]
Humidity	≤ 90%
Local Storage	Built-in memory card slot, support microSD/microSDHC/microSDXC (up to 256 GB)
Indoor/Outdoor	Outdoor
Audio I/O	1-ch audio input and 1-ch audio output
Alarm I/O	1-ch alarm input and 1-ch alarm output, support alarm linkage: Memory Card Recording/Alarm Output/Notify Surveillance Center/Upload to FTP/Send Email

# Ultra Series Network Cameras

- › Ultra Series Cameras easily meet the requirements for projects with surprisingly high performance, excellent stability and network security
- › Excellent adaptability to lighting conditions with DarkFighter and ColorVu technologies
- › False alarm reduction through human and vehicle target classification based on AcuSense technology
- › Excellent stability: dual-file system backup, wide voltage range, NEMA 4X anti-corrosion, etc.
- › Loaded with advanced security functionalities to increase your system's cyber defense capabilities, including 802.1x EAP-TLS 1.2, security audit log, stream encryption, SFTP, SD card encryption, etc.
- › Supports HEOP, Metadata, ONVIF, ISAPI, SDK, and E-Home to make integration easier

### Solar-powered Security Camera Setup

Model	DS-2XS6A8761-L/C32S80
Image	
Image Sensor	1/1.2" Progressive Scan CMOS
Max. Resolution	3840 × 2160
Video Compression	Main stream: H.265 Sub-stream: H.265/MJPEG * Full power mode: main stream supports H.265+
Min. Illumination	Color: 0.0005 Lux @ (F1.0, AGC ON), B/W: 0 Lux with white light
WDR	120 dB
Lens	Fixed focal lens, 2.8 and 4 mm optional
FOV	2.8 mm, horizontal FOV: 101.6°, vertical FOV: 52.4°, diagonal FOV: 124° 4 mm, horizontal FOV: 88.2°, vertical FOV: 48.7°, diagonal FOV: 101.8°
Max. IR Range	30 m
VCA	Line crossing detection, up to 4 regions configurable Intrusion detection, up to 4 regions configurable Region entrance detection, up to 4 regions configurable Region exiting detection, up to 4 regions configurable Unattended baggage detection, up to 4 regions configurable Object removal detection, up to 4 regions configurable The smart events are only supported under full power mode.
Frame Rate	50 Hz: 12.5 fps (3840 × 2160, 2688 × 1520, 1920 × 1080, 1280 × 720) 60 Hz: 15 fps (3840 × 2160, 2688 × 1520, 1920 × 1080, 1280 × 720)
Multi-Streaming	2
Protection Level	IP67
Operating Temperature	Charging: -20 °C to 45 °C (-4 °F to 131 °F) Discharging: -20 °C to 60 °C (-4 °F to 140 °F)
Operating Humidity	≤ 95%
Local Storage	vBuilt-in memory card slot, support microSD card, up to 256 GB; Built-in 64 GB eMMC storage
Audio I/O	1 in, 1 out
Alarm I/O	1 in, 1 out
Installation	Outdoor
Power Supply	12 VDC ± 20%, Ø5.5 mm coaxial power plug 1. Standby power consumption: 53 mW 2. The average power consumption of 24 hours: 2 W (4G transmission is excluded). 3. The max. power consumption: 3.2 W

# PTZ Dome Camera

**033** Ultra Series

**043** Special Series

# TandemVu PTZ Cameras

## Big Picture and Small Details in One View

- > H.265+/H.265 codec
- > High-quality imaging with 4 MP resolution for both bullet and PTZ channels
- > ColorVu, DarkFighter, Powered by DarkFighter technologies
- > 180° image stitching (panoramic models only)
- > Smart linkage
- > Deep-learning-based target classification algorithm for Auto-Tracking 3.0 and perimeter protection
- > False alarm reduction through human and vehicle target classification based on AcuSense technology
- > Image enhancement including rapid focus, P-Iris (recise Iris for best quality or best depth of field), 120 dB WDR, and IR
- > High zoom ratio & built-in gyroscope to improve EIS performance (GIS)
- > Supports IK10 & IP67, wiper
- > Supports Open Network Video Interface and ISAPI
- > Supports Hikvision SDK and third-party management platforms

# Ultra Series PTZ Cameras

## Great Innovation, Inside and Out

- > H.265+/H.265 codec
- > 4K ultra HD
- > ColorVu, DarkFighter, DarkFighterX technology
- > High resolution DarkFighter deep-learning-based target classification algorithm for Auto-Tracking 3.0 and perimeter protection
- > False alarm reduction
- > Face capture and ANPR
- > Image enhancement including rapid focus, P-Iris, 140 dB WDR, and extended IR
- > High zoom ratio & optical image stabilization (OIS)
- > Supports IK10 & IP67, wiper, anti-corrosion
- > Supports Open Network Video Interface and ISAPI
- > Supports Hikvision SDK and third-party management platform

# Special Series PTZ Cameras

## Great Innovation, Inside and Out

- > Up to 1920 x 1080 resolution
- > H.265+ / H.265 codec
- > DarkFighter Technology
- > False alarm reduction through human and vehicle target classification based on AcuSense technology
- > More zoom ratio options 25x / 36x / 40x / 50x / 100x
- > Supplemental light options – IR (up to 400 m in distance), Laser (up to 3,000 m in distance)
- > Supports IP66, wiper
- > Supports Open Network Video Interface and ISAPI
- > Supports Hikvision SDK and third-party management platform
- > Traffic violation detection with deep-learning algorithm (only supported by Traffic PTZ Cameras)
- > Built-in gauge reading algorithm (only supported by Water-Level Monitoring PTZ Cameras)

# Panoramic Camera

**047** PanoVu Series

**051** Fisheye Series

# PanoVu Series

## From Expansive Scenes to Detailed Close-Ups

- > 360° / 270° / 180° image stitching of up to 32 MP
- > Multiple display modes
- > F1.0 super large aperture (ColorVu technology)
- > Face capture (PTZ PanoVu only)
- > Augmented Reality
- > Saves labor costs and IP address costs

# Anti-Corrosion Series

## The Best Choice for Critical Industry Applications

- › Anti-corrosion certification: NEMA-4X, C5
- › 316L Stainless Steel housing or anticorrosive coating
- › DarkFighter technology
- › Deep learning perimeter protection and face capture
- › H.265+/H.265 codec

Image Sensor	1/1.8" Progressive Scan CMOS
Max. Resolution	1920 × 1080
Video Compression	H.264 / MJPEG / MPEG4
Min. Illumination	Color: 0.002 Lux @ (F1.5, AGC ON), B/W: 0.0002 Lux @ (F1.5, AGC ON)
WDR	v 140 dB
Lens	5.9 mm to 188.8 mm, 32 × Optical
FOV	Horizontal field of view: 59.8° to 3.3° (wide-tele), Vertical field of view: 33.7° to 1.9° (wide-tele), Diagonal field of view: 65° to 3.8° (wide-tele)
Max. IR Range	-
VCA	intrusion detection, line crossing detection, region entrance detection, region exiting detection, loitering detection, people gathering detection, fast moving detection, parking detection, unattended baggage detection, object removal detection, vandal-proof alarm, audio exception detection, Face capture
Frame Rate	50Hz: 25fps (1920 × 1080, 1280 × 960, 1280 × 720) 60Hz: 30fps (1920 × 1080, 1280 × 960, 1280 × 720)
Multi-Streaming	3
Protection Level	Lightning Protection, Surge Protection and Voltage Transient Protection, ±6kV Line to Gnd, ±3kV Line to Line, IEC61000-4-5, IP67 Standard, IK10
Operating Temperature	-40° C to 65° C (-40° F to 149° F)
Operating Humidity	≤ 95%
Local Storage	256 GB
Audio I/O	1/1
Alarm I/O	7/2
Installation	Outdoor
Power Supply	24 VAC Hi-PoE

Description	Up to 16-ch 4 MP video analysis for human and vehicle recognition to reduce false alarms	16 libraries with 100,000 face pictures in total; Face picture comparison and alarm linkage actions for up to 8 channels	Up to 4-ch 4MP, facial recognition is supported for people not wearing hard hat 16 libraries 100000 pictures Up to 4-ch 4MP, including absence detection, staying overtime detection, number of people exception detection, and playing mobile phone detection Up to 4-ch 4MP, including people gathering detection, people running detection, physical conflict detection, and people falling down detection Up to 4-ch 4MP, including people counting statistics and regional people counting

# Ultra Series NVR

## Superior Storage and Robust Recording

- › H.265+/H.265, H.264+/H.264, MPEG4 self-adapting decoding
- › Supports people counting cameras, automatic number plate recognition (ANPR) cameras, fisheye cameras, PanoVu camera and point-of-sale (POS) text overlay
- › Advanced streaming technology enables a smooth live feed even under imperfect network conditions
- › Supports RAID 0, 1, 5, 6, 10 and N+M hot spare for even more reliable data storage, effectively reducing data loss risks
- › Supports IoT systems (CCTV and Non-CCTV convergence)

## Pro Series NVR

First choice for small- to medium-sized projects

- > H.264/H.264+, H.265/H.265+, MPEG4 self-adapting decoding
- > Supports VCA search and POS function
- > New easy-to-use GUI 4.0 features intuitive interface
- > Hik-Connect for easy network management

# Workstation Series

## Seeking VMS Partners for Collaboration

- > Unique module featuring outstanding hardware development
- > Supports Windows 10 or Linux Ubuntu OS for third-party VMS
- > Configurable alarm I/O and PoE interfaces for third-party integration
- > Multiple models with corresponding hardware such as CPU, memory, and storage to satisfy a host of applications

Model	DS-9000AI-S16-D	DS-WSELI-T4(1/16P)

# Network Storage

**077** Hybrid SAN

**081** Cluster Storage

# Hikvision Hybrid SAN Products

Cost-Effective, Dedicated, Superior Data Security and Sustainability

- › Dual mode support: Video Direct Streaming and IPSAN
- › Video Direct Streaming mode eliminates need for recording servers, with excellent cost-effective video storage
- › Video stream-based R/W/Search operation, higher efficiency
- › Super N+1 failover (1 failover node to take over traffic of multiple faulty nodes) providing enhanced video safety
- › Proven lab and field compatibility in IPSAN mode with leading VMSs such as Milestone, AXXON, ISS, etc.
- › Supports local, remote, and scheduled backup
- › Hybrid SAN with pre-installed HDDs creates cost-effective solutions for long-term storage
- › Supports ONVIF, PSIA, and RTSP protocols and extended data retention (with third-party cameras such as Bosch, Axis, Sony, Samsung, etc.)

	<b>Enclosure</b>	Multilevel
	<b>Power</b>	Redundant (1+1)
	<b>Applicable Models</b>	DS-AD82012D-ODL
<b>General</b>	<b>Chassis</b>	standard 5U chassis
	<b>Dimension (W × D × H)</b>	483 × 222 × 975 mm (19.0 × 8.7 × 38.4 inch)
	<b>Weight (Maximum Capacity)</b>	135 kg (297.6 lb)
	<b>Consumption (without HDD)</b>	≤ 2200 W

# Hikvision Cluster Storage Products

High Performance, High Scalability, High Reliability, High Availability

- > Clustering technology creates load balancing and prevents single-point failure
- > Supports fault tolerance to prevent single device failure
- > Virtual management unifies storage resources to one pool for flexible utilization.
- > Storage types include video, images, files, and objects
- > Equipment-level redundancy reaches the highest levels of data security
- > Real-time online system capacity expansion; one cluster device can expand to up to 30,000 channels of video input and 300 PB storage
- > These products make use of ultra-fault-tolerant Network RAID technology (based on Erasure Code)
- > One IP for the entire storage system means easy maintenance
- > Video can be backed up locally and via cluster storage to improve system reliability

# DeepinMind Server

Create Utility, Accurate, and Innovative AI

- › Fast and accurate facial, human body, vehicle and behavior recognition based on deep learning algorithms
- › Professional GPU accelerator with high computing capacity
- › Supports clustered implementation to facilitate load balancing, dynamic expansion, and system failover
- › Abundance of functions to meet needs in a multitude of scenarios and requirements

Model		DS-IF1032-03U/X	DS-IF1064-03U/X	DS-IF2003-A3H/NF	DS-IF2006-A3H/NF

Image		 DeepinMind	 DeepinMind
Data type (mixed storage for multiple data types)		Human face data Human body data Vehicle data	Human face data Human body data Vehicle data
Storage capacity (storage capacity for single data type)		2.4 billion pieces of human face data 3 billion pieces of human body data 6 billion pieces of vehicle data	800 million pieces of human face data 1 billion pieces of human body data 2 billion pieces of vehicle data
Search by picture (storage capacity for single data type)		Accelerated searching for 100 million pieces of structured data	Accelerated searching for 30 million pieces of structured data
Application function	Human face	Attribute search, search by picture, area comparison, frequently appeared person analysis, destination analysis, companion analysis, statistics analysis, human arming, etc.	Attribute search, search by picture, area comparison, frequently appeared person analysis, destination analysis, companion analysis, statistics analysis, human arming, etc.
	Human body	Attribute search, statistics analysis, search by picture, etc.	Attribute search, statistics analysis, search by picture, etc.
	Vehicle	Vehicle search, trace search, facial masking in night, entering downtown for first time, frequent entrance & exit, area comparison, search by picture, vehicle with fake license plate analysis, model arming, etc.	Vehicle search, trace search, facial masking in night, entering downtown for first time, frequent entrance & exit, area comparison, search by picture, vehicle with fake license plate analysis, model arming, etc.
Mainboard	CPU	Intel © Xeon© 6230 CPU x 2	Intel © Xeon© 4114 CPU x 2
	Memory	512 GB DDR4	256 GB DDR4
	Hard disk drive	240 GB M.2 x 1 (system) + 240 GB M.2 x 1 + 6 TB PCIe SSD x 1 + 4 TB 7.2 K SATA x 6 (RAID_10)	240 GB M.2 x 2 + 480 GB SSD x 6 + 4 TB 7.2 K SATA x 2 (RAID_1)
Interface	Data interface	10 GbE x 2 + 1GbE x 2	GigE x 4 or above
Power	Power module	750 W (1 + 1)	750 W (1 + 1)

Model		DS-IX2001-A3U/X	
Image		 <span style="color: orange;">HOT</span>	
Device performance	Face picture analysis	Analysis type	Supports analysis, comparison and classification of faces in pictures, real-time videos or recordings.
		Picture analysis and comparison	120 pieces/second;Format: jpeg, bmp, tif, png
		Video analysis and comparison	20 channels (1080 P)
		List Library	3 million pictures in total (≤ 128 list libraries)
		1 V 1 comparison	22 pairs/second
	Video structured data analysis	Imported video analysis	Single video size ≤ 10 GB, and total video size ≤ 100 GB Max. 40 times accelerated analysis speed Format: ts, svac, mbf, ps, mp4, avi, asf
		Analysis Type	Supports analysis and modelling for human bodies or vehicles in pictures, real-time videos or recordings.
		Analysis of human body or vehicle pictures	30 pieces/second Format: jpeg, bmp, tif, png
	Data storage	Analysis of human body or vehicle videos	20 channels (1080 P)
		Imported video analysis	Single video size ≤ 10 GB, and total video size ≤ 100 GB; Max. 40 times accelerated analysis speed; Format: ts, svac, mbf, ps, mp4, avi, asf
* The above performance of facial analysis, vehicle analysis and video structuralization is mutually exclusive.			
Hardware	Interface	Picture and structured data	30 million
		List library	10 million (including 3 million alarm library)
		Network interface	Gigabit Ethernet self-adaptive interface x 4
	General	USB interface	USB 2.0 x 2 + USB 3.0 x 2
		VGA interface	2
		Chassis specification	19 inch 2 U standard chassis
	General	Power module	Hot-plugged efficient 1+1 redundant power module
		Power consumption	750 W
		Storage temperature	-40°C to 70°C (-40°F to 158 °F)
		Working temperature	5°C to 35°C (41°F to 95 °F)
General	Working humidity	8% to 90% (without condensation)	
	Dimension (L x W x H)	715.5 mm x 482 mm x 86.8 mm (28.2 inch x 19.0 inch x 3.4 inch)	
	Package size (L x W x H)	965 mm x 670 mm x 320 mm (38.0 inch x 29.4 inch x 12.6 inch)

# General Purpose Server

## Nearly Endless Applications

With high-performance hardware, General Purpose Servers have been expertly designed for various types of applications, such as in financial institutions, stock markets, transportation centers, postal and telecommunications centers, energy production, and other remote environments. These capable servers meet and exceed the strict requirements on performance, data scalability, and reliability.

# HeatPro Series

## Professional Protection Made Simple

Hikvision HeatPro Series Cameras feature deep-learning thermal video analytics for all-weather perimeter protection, object temperature measurement, and fire detection with real-time alarms. They are easy to configure, making the cameras ideal for SMB applications in residential, construction sites, retail, parking, museums, data centers, and other verticals.

- > All-weather deterrence and alerts
- > Simple, three-step deployment for perimeter protection
- > Thermal video analytics with deep-learning human & vehicle classification, reducing maintenance overhead
- > Temperature exception alarms for fire prevention
- > Visual and auditory alarms

# Presence Detectors

## Professional Protection Made Simple

Compared with conventional thermal cameras, presence detectors feature a more compact and discrete design. At the same time, thermal imaging protects user privacy by not capturing detailed features that allow personal identification. Furthermore, the detectors' ultra-low power consumption makes them adaptable to a variety of installation conditions. Therefore, these presence detectors are used widely in nursing homes, banks, apartments, and many other scenarios.

- > Out of room, out of bed, and leave-without-return detection
- > Privacy protection using thermal imaging
- > Friendly design, suitable for indoor use
- > Built-in temperature measurement algorithm,  $-10^{\circ}$  to  $200^{\circ}$  C ( $14^{\circ}$  to  $392^{\circ}$  F),  $\pm 8^{\circ}$  C ( $\pm 14.4^{\circ}$  F)
- > Human presence detection and person-number anomaly detection

# Security Group Cameras

## See the World in a New Way

Hikvision's Thermal Security Cameras feature deep-learning thermal video analytics for all-weather perimeter protection, object temperature measurement, and fire detection with real-time alarms. They feature expert design for high value infrastructure applications in power stations, substations, airports, warehouses, and other verticals.

- All-weather deterrence and alerts
- Thermal video analytics with deep-learning human & vehicle classification, reducing maintenance overhead
- Temperature exception alarms for fire prevention
- Multiple model options covering short and long range demands

# Thermography Group Products

## Any Moment, Any Condition

Hikvision's Thermographic Cameras have been used widely for temperature detection in regions of interest, inspection on potential heat sources, and failure detection in noncontact electromechanical systems. They meet high demands for substations, hydropower stations, waste treatment plants, manufacturing workshops, and similar applications.

- > Accurate temperature measurement, up to  $\pm 2$  °C ( $\pm 3.6$  °F) or  $\pm 2$  %
- > 24/7 real-time measurement with instant alarms on temperature anomalies
- > Deep learning algorithm reduces false alarms from forklifts, shadows, etc.
- > Various types of measuring rules for detection and recording flexibility
- > Continuous and consistent temperature data

Thermography

# Temperature Screening Products

## Safer & Smarter, Towards the New Normal

Hikvision's Temperature Screening Thermographic Cameras, with advanced algorithm and thermal detectors, are designed to detect elevated skin-surface temperatures. With accuracy up to  $\pm 0.3$  °C, ( $\pm 0.5$  °F), they can be used for rapid and preliminary temperature screening in office buildings, factories, stations, airports, and other public places.

- > Safe - Noncontact measurement prevents physical contact
- > Fast - One second per capita for skin-surface temperature detection
- > Smart - Deep-learning detection reduces false alarms
- > Flexible - Multiple product choices for fixed or portable deployment
- > Accurate - Up to  $\pm 0.5$  °C ( $\pm 0.9$  °F) w/o Blackbody Calibrator and  $\pm 0.3$  °C ( $\pm 0.5$  °F) w/ Blackbody Calibrator

## SAFER, FASTER, SMARTER

## Brighten Every Moment

- > Pix Master Pixel Control – Proprietary image processing technology enhances image clarity without loss of detail.
- > Top Grey Level – 22-bit top grey level brings you a wider range of color grades
- > Remote Control – Remote controller meets all your needs, including display modes adjustments & signal source switches, brightness level, automatic dehumidification and blue light filtering
- > User-friendly Design – Flexible installation with floor-standing, wall-mounting, and hoisting methods to choose from; easier maintenance with front magnetic wireless module design
- > Automatic Dehumidification – Automatic dehumidification function lowers light failures by 30% on average, effectively lengthening lifespan
- > Energy-saving design and up to 10,000 nits for outdoor LED displays

## All You Need to See, All the Time

- > A signal source can be displayed on M × N (M ≥ 1, N ≥ 1) display units
- > Built-in matrix, one signal displays on multiple windows
- > Window division, splicing, roaming, cross-window
- > Supports 1/4/9/16 window division modes and full-screen window switching
- > Supports abundant interface types
- > Mixed input and output slots
- > Supports audio input and output
- > Supports decoding board

Model		DS-C30S-S11	DS-C30S-S23
Image		 <span style="color: red; font-weight: bold;">NEW</span>	 <span style="color: red; font-weight: bold;">NEW</span>
Hardware	Slot Number	11 (mixed insertion of input and output boards)	23 (mixed insertion of input and output boards)
Motherboard (DS-C30S-MCU)	Network Interface	2, 10 M/100 M/1000 M self-adaptive Ethernet interfaces 1, 10 Gigabit optical interface	2, 10 M/100 M/1000 M self-adaptive Ethernet interfaces 1, 10 Gigabit optical interface
	USB Interface	2 × USB 2.0 (Reserved)	2 × USB 2.0 (Reserved)
	RS-232 Serial Interface	1	1
Network Decoding Board (DS-C30S-DEC)	Decoding Performance	Resolution: 16 × 1080P30 or 32 × 720P@30. Supports decoding up to 1600W pixels. Format: H.265, H.264, Mpeg4, etc. Audio Decoding Channel Number: 32 Format: audio encoding format G711-A, G711-U, G722.1, G726-16/U/A, MPEG, AAC-LC	
DVI Input Board (DS-C30S-04DI)	Interface	4 × DVI interface	
	DVI Input Resolution	1024 × 768@60 Hz, 1280 × 1024@60 Hz, 1366 × 768@60 Hz, 1440 × 900@60 Hz, 1680 × 1050@60 Hz, 1280 × 960@60 Hz, 1600 × 1200@60 Hz, 1280 × 720P@50 Hz, 1280 × 720P@60 Hz, 1920×1080P@50 Hz, 1920 × 1080P@60 Hz, 1920 × 1200@60 Hz	
VGA Input Board (DS-C30S-04VI)	Interface	4 × VGA interface	
	VGA Input Resolution	1024 × 768@60 Hz, 1280 × 1024@60 Hz, 1366 × 768@60 Hz, 1440 × 900@60 Hz, 1680 × 1050@60 Hz, 1280 × 960@60 Hz, 1600 × 1200@60 Hz, 1280 × 720P@50 Hz, 1280 × 720P@60 Hz, 1920×1080P@50 Hz, 1920 × 1080P@60 Hz, 1920 × 1200@60 Hz	
HDMI Input Board (DS-C30S-04HI)	Interface	4 × HDMI interface	
	HDMI Input Resolution	1024×768@60Hz, 1280×1024@60Hz, 1366×768@60Hz, 1440×900@60Hz, 1680×1050@60Hz, 1280×960@60Hz, 1600×1200@60Hz, 1280×720P@50Hz, 1280×720P@60Hz, 1920×1080P@50Hz, 1920×1080P@60Hz, 1920×1200@60Hz	
HDMI Input Board (DS-C30S-02HI/4K)	Interface	2 × HDMI interface	
	HDMI Input Resolution	custom resolution: width 1920 - 4092, height 1080 - 2160, frame rate 30/60. Only supports frame rate of 60 when the width is less than 2560 or the height is less than 1940.	
DP Input Board (DS-C30S-02DPI/4K)	Interface	2 × DP interface	
	DP Input Resolution	1024 × 768@60 Hz, 1280 × 1024@60 Hz, 1366 × 768@60 Hz, 1440 × 900@60 Hz, 1680 × 1050@60 Hz, 1280 × 960@60 Hz, 1600 × 1200@60 Hz, 1280 × 720P@50 Hz, 1280 × 720P@60 Hz, 1920 × 1080P@50 Hz, 1920 × 1080P@60 Hz, 1920 × 1200@60 Hz, 3840 × 2160@30 Hz, 3840 × 2160@60 Hz, 4096 × 2160@30 Hz, 4096 × 2160@60 Hz	
DVI Output Board (DS-C30S-04DO)	Interface	4 × DVI interface	
	DVI Output Resolution	1920 × 1200@60 Hz, 1600 × 1200@60 Hz, 1920 × 1080@60 Hz, 1680 × 1050@60 Hz, 1280 × 720@60 Hz, 1280 × 1024@60 Hz, 1024 × 768@60 Hz Supports LED screen and custom resolution output. Can be configured with maximum area length x width less than 260 W.	
HDMI Output Board (DS-C30S-04HO)	Interface	4 × HDMI interface	
	HDMI Output Resolution	1360 × 768@60Hz, 1400 × 1050@60Hz, 1280 × 720@60Hz, 1024 × 768@60Hz, 1920 × 1080@60Hz	
Two-in-one output board card (DS-C30S-L104)	Interface	4 x miniSAS to 20 x 1G electrical interfaces, 2 x 10G optical interfaces	
	Video Output Resolution	1920 × 1200@60 Hz, 1600 × 1200@60 Hz, 1920 × 1080@60 Hz, 1680 × 1050@60 Hz, 1280 × 720@60 Hz, 1280 × 1024@60 Hz, 1024 × 768@60 Hz, Supports LED screen and custom resolution output. Can be configured with maximum area length x width less than 260 W.	
Others	Power Supply	AC 100 - 240 V, 50/60 H 1+2 redundant power supplies	AC 100 - 240 V, 50/60 Hz 2+1 redundant power supplies
	Consumption	≤600 W (full-loaded)	≤1000 W (full-loaded)
	Working Temperature	0 °C - 50 °C	0 °C - 50 °C
	Working Humidity	10 - 90% (non-condensing)	10 - 90% (non-condensing)
	Chassis	4.5 U	8 U
	Dimension	447 mm (depth) × 207.8 mm (height) × 442 mm (width)	447 mm (depth) × 354.8 mm (height) × 442 mm (width)
	Weight	≤40 KG (full-loaded)	≤60 KG (full-loaded)

# HikCentral Professional

## Versatile Security in One Platform

HikCentral Professional, Hikvision's software platform for integrating and managing security systems, is designed to meet a variety of security challenges in one place. With this advanced platform, users can manage individual systems such as video security, access control, security alarms, and more, as well as explore cross-system functionalities. While facilitating protection of people and property, HikCentral Professional makes daily operations more efficient and helps users of all kinds make smarter decisions.

- **Simplifies Deployment and Maintenance** – With a minimum system requirement of Intel i3 CPU and 8 GB RAM, you can have your own security platform deployed with limited hardware cost. Moreover, maintenance of the whole system is much easier with visualized health monitoring in real time.
- **Facilitates Hassle-free Integration** – Through an open architecture design and a series of highly adaptive OpenAPI interfaces, you will enjoy hassle-free integration with a wide range of third-party systems such as ARC and payroll systems.
- **Streamlines Operations and Management** – With situational awareness powered by informative dashboards and interactive E-maps, optimal approaches advised by operation wizards, and the flexibility of a user-defined control panel, you will make smarter decisions fluidly and efficiently.
- **Scales as Business Grows** – By virtue of a flexible and scalable architecture, the platform can be scaled as your business needs evolve. You can expand it from a small 32-channel, 8-door system to an ultra-large-scale system that links up to 100,000 channels of equipment (under the RSM mode).

# HikCentral Enterprise-Retail

## Platform Solution for Retail Business Intelligence

HikCentral Enterprise- Retail is a centralized and intelligent platform that combines reliable video surveillance functionality with intelligent application, helping retailers improve in-store service and increase store profits. HikCentral Enterprise-Retail is suitable for small or middle-sized chain stores, which increases the effectiveness and efficiency. It provides operation management, operation analytics, audit and rating, integrated control, video security, alarm detection and maintenance applications to meet the requirements of retailers who need a boost in operations, management, and more.

- > **Operation Management** - The retail component supports customer and unauthorized-person archive management, searching and viewing store visit records of various types of persons (including customers, regular customers, unauthorized persons, strangers, etc.) , view visitor capture records, visitor comparison records, and search the captured pictures by uploading a picture. And store visit records are also available by mobile.
- > **Customer Traffic Analysis** - The retail component supports multiple customer traffic statistics, such as customer traffic analytics, Walk-In Rate Analytics, Customer Flow Direction Analytics, Customer Expression Analytics. It can exclude clerks and repetitive customers for more accurate customer traffic analytics (based on faces).
- > **Audits and Rating** - Real-time random audits, timed random audits, on-site audits (via E-Store app), image scheduled audits, and video scheduled audits are featured. Users can submit deficiencies found in audits to the audited store for rectification. The deficiency center provides a closed-loop rectification procedure for any issues found in an audit, including rectification, submission of results, and review of the submitted results.

# HikCentral Enterprise-Industrial

## All-inclusive Platform Solution for Industrial Parks

HikCentral Enterprise-Industrial is a centralized and intelligent platform integrates and links security information by accessing video security devices, single-card system devices, parking lot devices, alarm system devices, and more, to give you diversified intelligent applications. Based on IoT technology, it integrates technologies such as video monitoring, facial recognition, AI, big data, etc., and combine hardware with software.

- **Industrial Application** – Goods management, dock management, AR-scenario application, AI-model management, remote patrol, thermal analysis, dashboard – it's all here. This system is suitable for industrial sites of commodities businesses, manufacturing industry, and logistics companies. Based on an "Integrated Software Framework", HikCentral Enterprise-Industrial will keep satisfying users' quickly updating needs via its advanced componential technology. This system will excel in every industry with its integration and centralized management of various resources.
- **Access Control** – The integrated system includes access control, elevator control, visitor management, video intercom, patrols, and other functions to help users manage the access permissions of various personnel and formulate patrol tasks.
- **Vehicle Control** – Entrance and exit management, parking lot management, parking guidance, checkpoint violation management, etc., constitute a vehicle control system so users can build their own parking payment and violation management system.
- **Base Functionality** - Includes video security, alarm detection and maintenance applications. Video Security modules provides live viewing, playback, smart video walls, and PTZ control, this system helps users complete daily security inspections and monitoring. Alarm detection modules provides intrusion alarm and panic alarm, supports managing and configuring alarm devices, arming/disarming/clearing alarm of the partition, and arm/disarm all the partitions,.etc. In Operation and Maintenance modules, users can check the status of various devices and services in real time, troubleshooting and making repairs in a timely manner wherever and whenever needed.

# HikCentral Enterprise-Education

## Intelligent Platform Solution for Education

HikCentral Enterprise-Education is an information technology which has been developed for central management of video monitoring and education. It is a platform for collaborative teaching-learning to connect students and educators virtually and ensure uninterrupted learning with screen sharing. It features flexibility, scalability, high reliability, and powerful functions.

- > **Education Application** – This deep vertical application provides education sharing, classroom attendance, and education Digital Signage, school gate Attendance, dorm Attendance. The informatization of education is designed to use information technology to support the use and development of educational resources.
- > **Access Control** – The integrated system includes access control, elevator control, visitor management, video intercom, patrols, and other functions to help users manage the access permissions of various personnel and formulate patrol tasks.
- > **Vehicle Control** – Entrance and exit management, parking lot management, parking guidance, checkpoint violation management, etc., constitute a vehicle control system so users can build their own parking payment and violation management system.
- > **Base Functionality** - Includes video security, alarm detection and maintenance applications. Video Security modules provides live viewing, playback, smart video walls, and PTZ control, this system helps users complete daily security inspections and monitoring. Alarm detection modules provides intrusion alarm and panic alarm, supports managing and configuring alarm devices, arming/disarming/clearing alarm of the partition, and arm/disarm all the partitions,.etc. In Operation and Maintenance modules, users can check the status of various devices and services in real time, troubleshooting and making repairs in a timely manner wherever and whenever needed.

# HikCentral Enterprise-ClassIn

## Remote Training Solution

Hikvision Remote Training Solution, Hikvision's lightweight remote training solution expands the online training scene to better meet the needs of users

- > **High adaptability** - HikCentral Enterprise-ClassIn software is perfectly compatible with the current popular conference software, without changing customers' usage habits, and perfectly makes up for the butting problem between IP devices of the conference software.
- > **Immersive training experience** - High-definition close-up and panorama of the training site are brought to the remote students, with automatic character tracking and automatic switch between close-up and panorama, which greatly improves the training effect compared with the traditional single teacher's profile picture.
- > **Simple operation** - One click before training, complete all configuration operations within 30 seconds, improving ease of use.

### HCE-ClassIn

Item	Recommended Requirements
Operating System	Microsoft® Windows 7, Windows 10 (32-bit and 64-bit)
CPU	More than core 8

### HikCentral Enterprise-ClassIn Maximum Performance

Items	Max Performance
Delay for video streaming access to ZOOM	Within 1 second
CPU utilization	Between 30% and 40%
Classroom	Around 200
Resolutions	More than 640*480

# HikCentral Enterprise-ClassLink

## Synchronous Classroom Tool

Interactive teaching and learning among classrooms, creating opportunities for interaction between teachers and students at various locations simultaneously.

- > **High Compatibility with Conference Software** - Compatible with Zoom, Webex, Teams, and Google Meet.
- > **Compatible with a Wide Range of Devices** - Supports all Hikvision IP devices, including teacher-tracking cameras and other devices.
- > **High Cost-Performance** - Competitive license cost.
- > **Easy Operation** - Quick configuration within 30s. One-touch connection in the classroom. Supports video and audio sharing together.

Item	Recommended Requirements
Operating System	Microsoft® Windows 10 (32-bit and 64-bit)
CPU	More than core 4, 2.11GHZ
Memory	More than 8 GB (Recommend)

HikCentral Enterprise-ClassLNK Maximum Performance	
Items	Max Performance
CPU usage	Software not in use: less than 2%; software in use: less than 10%
Classrooms	200
ClassLNK Interactive class	1 host and no more than 3 participants
Resolutions	Min. resolution: 1920 × 1080 pixels

# HikCentral Master-MobileEnforcement

## Mobile Enforcement Application

Targeting users with administrative enforcement authority, including public security and traffic police, HikCentral Master-MobileEnforcement provides evidence management, enforcement event management, real-time command, and other functions.

- > **Evidence Management** - Searching, previewing, downloading, marking, deleting, and archiving of evidence, as well as checking notes and downloading records by enforcement administrators.
- > **Enforcement Event Management** - Creating events, linking evidence, and classifying events by enforcement administrators to improve work efficiency.
- > **Personnel Management** - Tracking patrol routes, receiving SOS alarms, and checking alarm records by enforcement administrators.
- > **Maintenance** - Viewing device status and remotely operating body-worn cameras (including start video recording, start audio recording, start image capturing, and refresh device status) by enforcement center managers.
- > **Enforcement Statistics** - Displaying duty-attendance statistics, event trends, SOS alarm statistics, and event type statistics for enforcement center managers.
- > **Command Center** - Achieving rapid and efficient interaction, real-time commands, live feed, and receiving SOS alarms by enforcement center managers, utilizing maps or resource trees.

# HikCentral Master

## Comprehensive Platform Solution with Unlimited Expandability

HikCentral Master is an application platform designed for immense, fail-safe distribution of devices and services across multiple locations. Integrating AI, AR, big data, and other capabilities under the AI-Cloud architecture, HikCentral Master supports a virtually unlimited number of devices, users, and sites to meet a diversity of needs for data storage, analysis, and application.

- > **Intelligent Platform Management** – Supports non-stop installation, parameter configuration, server monitoring, and log analysis. Supports cluster management and authorization management.
- > **Intelligent Applications** – Integrating multiple function and application software, the platform extends its applications from video security to those based on AI algorithms, such as ANPR and facial recognition. This makes the platform applicable to scenarios such as public security and intelligent transportation.
- > **Intelligent Scheduling** – Supports dynamic scheduling of computer resources based on integrated management of computers. Supports accessing multiple types of storage devices and integrates their management. It's compatible with devices from multiple manufacturers and multiple algorithms versions
- > **Open Platform** – Supports integration with third-party infrastructure, data, platforms, and applications based on open standards.
- > **Comprehensive Security Mechanism** – Provides security mechanisms for devices, networks, host computers, data, and applications, and supports multiple security control schemes.
- > **Extensibility and Scalability** – Supports expanding the service capacities such as the maximum number of added devices, streaming storage, events, and data libraries. Increases capacity and stability by distributed deployment.
- > **Multiple Usage Scenarios** – Supports assembling various modules into bespoke platforms based on specific usage scenarios.

HCM

What HikCentral Master can do for you ?	
HikCentral Master focuses on data application, data collection, storage, processing, and intelligent applications. It provides data integration, storage and analysis of multidimensional data in the scenario of Edge Domain and Cloud Center, integrated with technologies of Artificial Intelligence and Internet-of-Things (IoT).	
<b>Video Center</b>	Through video inspection, electronic map, video analysis and other technologies, the system can realize video real-time viewing and query, and conduct video map applications and analysis.
<b>Multidimensional Data Fusion</b>	With the functions of fusion search, face search, vehicle search and human body search basing on big data technology, the system can conduct fast query and advanced search on people and vehicles, so as to help users quickly determine personnel and vehicle information.
<b>Intelligent Data Applications</b>	Through AI and big data technology, the system can realize various face tactical functions such as peer analysis, personnel landing, and frequent passing, as well as vehicle tactical functions such as trajectory search, regional collision, and vehicle landing analysis.
<b>Alarm Arming</b>	By target arming and alarm query function, the system can realize arming on the vehicles and people, and configure corresponding alarm rules and linkage rules.
<b>Statistics Center</b>	Through face data statistics, vehicle data statistics, human data statistics and other big data storage and analysis technologies, the system can graphically display the multi-dimensional data friendly.
<b>Video Maintenance and Operation &amp; Management Center</b>	The video maintenance module can achieve intelligent real-time monitoring of the system video running status through cameras online status detection, video content diagnosis and video record inspection. The operation & management center, as an integrator of background services, provides integration capabilities for configuration, logging, and monitoring. It can integrate the component's own monitoring and configuration interface, and provides a single sign-on service for the operation management center.
<b>AR Application</b>	Through AR technology, various images, videos, 3D models, etc. are superimposed on the AR PanoVu camera's view in real time to realize functions such as video labeling, video planning, high-high linkage, high-low linkage, etc., providing a more intuitive and flexible central command and management way.
<b>Mobile Enforcement Application</b>	The application is targeted at users who have administrative law enforcement powers, including public security and traffic police. It provides evidence management, enforcement event management, real-time command and other functions.
<b>Smart Tool</b>	The Smart Tool is a tool collection which contains multiple sub-tools and provides different functions including video playing, video parsing, AI analysis, face detecting and matching, video editing, video converting, picture tagging and comparing, and so on. It is useful and helpful for entities such as police officers to locate a certain suspect whose criminal behavior has been recorded.

# HikCentral iVisual-UIPower

## Data visualization fusion platform & InfoCom DataVisual B-visual

The data visualization platform provides rich and cool visualization themes and data visualization design services to help users quickly, efficiently and accurately achieve business data display and assist users in management and decision-making;It provides multi-dimensional data analysis and complex report services as well as multi-perspective and multi-dimensional data analysis capabilities, and provides fast data source configuration.

Data visualization fusion service is a new intelligent data visualization large screen configuration management platform, the platform focuses on the integration of multiple separate visual large screen through configuration, providing powerful configuration functions, including jump mode, rotation mode, composite mode, flexible combination mode. In addition, the platform also supports importing through bee-eye platform sharing, providing rich resources for users to configure.

- **Theme Management** - Theme square is for all the released theme effect to display, quick search, and theme hot ranking. My theme is mainly used to manage visual theme template, including theme grouping, theme creation, design, release, improve the efficiency of user visual theme design. The material library is mainly used to manage visual theme design related pictures, videos and other materials, supports to group, upload, replace, delete the material and so on, improve user operation efficiency.
- **Plug-in library** - For the chart and other plug-ins management of the visual theme design, users can according to their own needs to develop the corresponding chart and other plug-ins (such as: map, AR, VR, etc.), through the plug-in integration.
- **Data Source Management** - For operators, it provides data services for visual data display, including databases, REST interfaces, and CSV files.
- **Personal Center** - User personal information management.
- **Theme fusion** - Supports base large screen and fusion large screen. The base large screen is to display all theme effects published on the platform. Fusion large screen is to display the theme effect of the fusion of multiple basic large screens.

# HikCentral-Workstation

## A Cost-Effective Product with HikCentral Professional

HikCentral-Workstation is a cost-effective unit embedded with HikCentral Professional software and Windows operating system. Combining the HikCentral Professional server and client, it creates efficient management of the live feed, playback, facial recognition, ANPR, access control, video intercom, alarm management, and more. It is used widely in small- to medium-sized projects and Hikvision's "solutions by scenario."

# HikCentral-Storage

A flexible, reliable, and powerful product with HikCentral Professional

- > Linux operating system and HikCentral Professional pre-installed
- > Integration of central management and storage, information sharing, convenient connection and multi-service cooperation
- > Capable of adding devices for management, live view, storage and playback of video files, alarm linkage, access control, and so on.

## HikCentral-Storage

Model	HikCentral-Storage/256/16H
Image	 <span style="color: red; font-weight: bold; font-size: small;">NEW</span>
Hardware Specification	
Operating System	Embedded Linux
Main Processor	Quad-Core Intel® Xeon® Processor E3 V5 Series
Memory	16GB DDR4. ECC parity. Extendable up to 64 GB
System Bandwidth	Multi-address/net fault-tolerance mode: 768 Mbps; Load balancing mode: 1,000 Mbps
Number of Storage Channels	256
HDMI 1 Output	1024 × 768/60 Hz
HDMI 2 Output	1024 × 768/60 Hz
VGA Output	1024 × 768/60 Hz
Video Output Mode	HDMI1/HDMI2/VGA simultaneous output
Audio Output	1-ch, RCA (Linear, 1 KΩ)
Audio Input	1-ch, RCA (2.0 Vp-p, 1 KΩ)
Network Mode	Net fault-tolerance, load balance, multi-address
Network Interface	4 × RJ45 10M/100M/1000M self-adaptive Ethernet interface
RAID Type	RAID0, RAID1, RAID5, RAID6, RAID10, RAID50, RAID60, JBOD
SSD	Industrial-level SSD with 128 GB capacity
SATA	16 SATA interfaces supporting hot-swapping (except the HDD at the first slot which contains the system disk)
eSATA	1 eSATA interface
Capacity	Up to 10 TB capacity for each disk
USB Interface	Front panel: 2 × USB 2.0; Rear panel: 2 × USB 3.0
Alarm In/Out	16/8
Extension Board	The extension board is optional to support. It has four 10M/100M/1000M optical interfaces (1.25 Gbps SFP module), eight RS-485 interfaces, 32 alarm inputs, and 16 alarm outputs.
Power Parameter	100 to 240 VAC, 50 to 60 Hz, redundant power supply
Consumption	≤ 140 W (without HDD)
Working Temperature	0 °C to 50 °C (32 °F to 122 °F);
Working Humidity	10% to 90% RH (no freezing and no condensation)
Chassis	3U
Dimension (W × D × H)	446 × 495 × 133 mm (17.6 × 19.5 × 5.2 inch)
Weight	≤ 17 kg (37.5 lb.)

Software Specification

# DORI Distance (D/O/R/I)

## NETWORK CAMERA

DeepinView Series

### Find the Optimal Camera for Your Individual Security Needs

The DORI distance is a "general proximity" of distance which makes it easy to pinpoint the right camera for your needs. The DORI distance is calculated based on sensor specification and lab test result according to EN 62676-4 which defines the criteria for Detect, Observe, Recognize and Identify respectively.
