Figure 1 shows a sequence of six screenshots from the 'Add Network' app, illustrating the process of adding a Wi-Fi network:

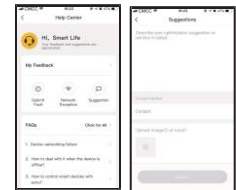

- Add Device:** The screen displays the title 'Add Device' and instructions: 'Place on the device and confirm that indicator light starts to blink.' Below this is a large grey square representing the device with a small red indicator light. A 'Done' button is at the bottom.
- Enter Wi-Fi Password:** The screen displays the title 'Enter Wi-Fi Password' and a prompt: '(This step is only for WPA2 network)'. It features a password input field with a strength indicator (three dots) and an 'OK' button.
- Connecting:** The screen displays the title 'Connecting' and instructions: 'Please wait until message "finished" and device will be added successfully.' A large circular progress indicator shows 8% completion. At the bottom, there are instructions: 'Please wait until message "finished" and device will be added successfully.' and a 'Completed' button.
- Device added successfully:** The screen displays the title 'Device added successfully' and a green checkmark icon. Below the checkmark is a 'Completed' button.

The figure consists of five screenshots from an Android phone, arranged in a 2x3 grid with the bottom-right cell empty. The screenshots show the process of connecting a device to a Wi-Fi network. The first screenshot shows the 'Add Device' screen with a 'Find My Device' icon and a 'Confirm location regularly later' button. The second screenshot shows the 'Enter Wi-Fi Password' screen with a password field and an 'OK' button. The third screenshot shows the 'Add Device' screen with a 'Find My Device' icon and a 'Confirm location regularly later' button. The fourth screenshot shows the 'Enter Wi-Fi Password' screen with a password field and an 'OK' button. The fifth screenshot shows the 'Connect the phone's Wi-Fi to the device's hotspot' screen with a 'Go to Settings' button.

The image displays two side-by-side screenshots of the Smart Life mobile application interface. The left screenshot shows the main menu with a status bar at the top indicating the time as 10:30 and battery level at 91%. The menu items are: Home Management, Message Center, Help Center, More Services, and Settings. The right screenshot shows the 'Settings' screen with a status bar at the top indicating the time as 10:34 and battery level at 91%. The settings options are: Sound, Push Notification, About, Clear Cache, and Log out.
