# IP Network Camera

## Deepinview Series

Deep Learning algorithm, Intelligent functions, running on GPU chips

## Ultra Series

High performance, variety functions

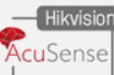

## Pro Series

EasyIP, cost effective

## Value Series

1 series, wifi series

## High Efficiency Encoding

H.264/H.264+/H.265/ H.265+

## Ultra Low Light Adaptability

Powered by DarkFighter, ColorVu, DarkFighter, DarkFighterX

## High Resolution

1MP, 2 MP, 4 MP, 8MP, 12MP

## Bad Network Adaption

Smooth streaming technology

## Intelligent Functions

Facial detection & capture; Facial recognition; ANPR; Flow analysis; People counting; Human behavior analysis;

## Hikvision Acusense Technology

High accurate perimeter detection: (Line crossing detection, intrusion detection, region exiting, region entrance etc,).

# IP Network Camera-AcuSense

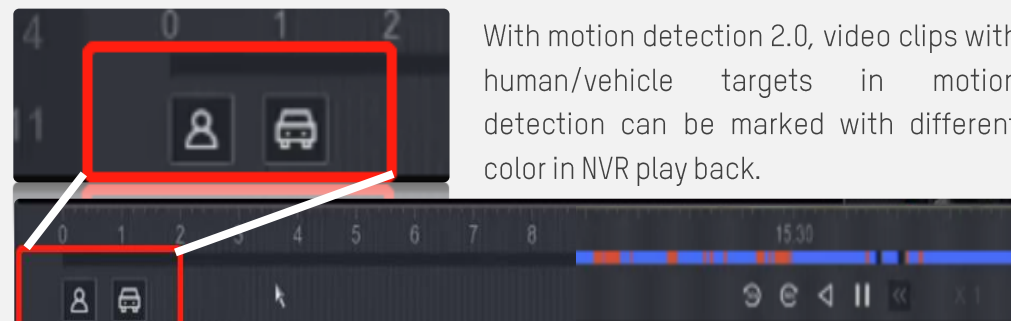

**AcuSense** is an intelligent video analysis technology based on deep learning algorithms, which detects targets and classifies them into human, vehicle and others. It helps to produce reliable alarms for users.

# IP Network Camera-AcuSense

## Motion Detection 2.0

Traditional Motion Detection + human/vehicle target classification

With motion detection 2.0, video clips with human/vehicle targets in motion detection can be marked with different color in NVR play back.

### Sensitive

01

Motion detection 2.0 inherits all the benefits of traditional motion detection, catching all changes in the video.

### Ease of Use

02

Configuration of motion detection 2.0 is similar to traditional motion detection.

### Efficient Playback

03

Motion detection 2.0 classifies the target types that trigger motion detection events into human, vehicle and others. The target type tag in video clips help people skip video clips without interested targets and save play back time.

# IP Network Camera-ColorVu

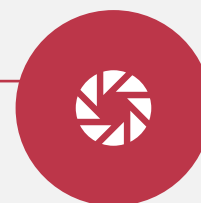

## Bright and Colorful Images

4 times more light than a conventional camera,  
2.56 times more light than a powered-by-DarkFighter camera.

### Advanced Sensor

Higher utilization of light, more light reaching the sensor(4 MP 1/1.8" Sensor)

### Large Aperture

F1.0 super aperture  
more light and brighter images

### Warm-light, Not Dazzling

Traffic camera light    Warm-light from a ColorVu camera

# IP Network Camera-7 Series

## Facial Recognition

Supporting face capture, comparison and face attributes analysis.

## Multi-Target-Type Detection

Supporting face and human body attributes analysis.

## Perimeter Protection

False alarm reduction.

## Vehicle Analysis

Supporting ANPR with Wiegand Interface and vehicle attributes analysis.  
Capture rate > 99% / Recognition rate > 98%  
(different rate please refer to spec for certain countries and regions).

## Face Counting

Excluding shop staffs and repetitive consumers to count people accurately, face comparison and face attributes analysis.

## Hard Hat Detection

Detecting the person whether wears a helmet or not.

## Queue Management

Detecting the **people number** in queuing and the **waiting time** of each person.

- Wrong driving detection

## Function

# PTZ Camera-High End DF Series

## GIS/OIS

Image stabilization helps camera obtain a stable image even installed at a high area

## IK10 & IP67

## Face Capture / Plate Recognition

## High Resolution & DarkFighter/ DarkFighterX

2MP/4MP, Good night vision, 0.002Lux

## Rapid Focus

Focus Accurately and Fast

## Auto-tracking 3.0

Support tracking specified target based on face image and plate number

# Panoramic Camera

## PanoVu PTZ

- Panoramic + Detail
- Ultra high resolution
- Stitching image
- Smart - tracking

## PanoVu Camera

- Stitching/ Non stitching
- Ultra high resolution

## PanoVu Mini

- Mini size
- Indoor
- Economic

## Fisheye

- Up to 12MP
- Heat Map
- Deep learning
- Half Sphere Preview

### Panoramic View

180° / 360° full view

### All In One Design

- Splicing function is embedded into PanoVu camera, which reduces the hardware cost
- Simplifying the system and installation
- Easy maintenance

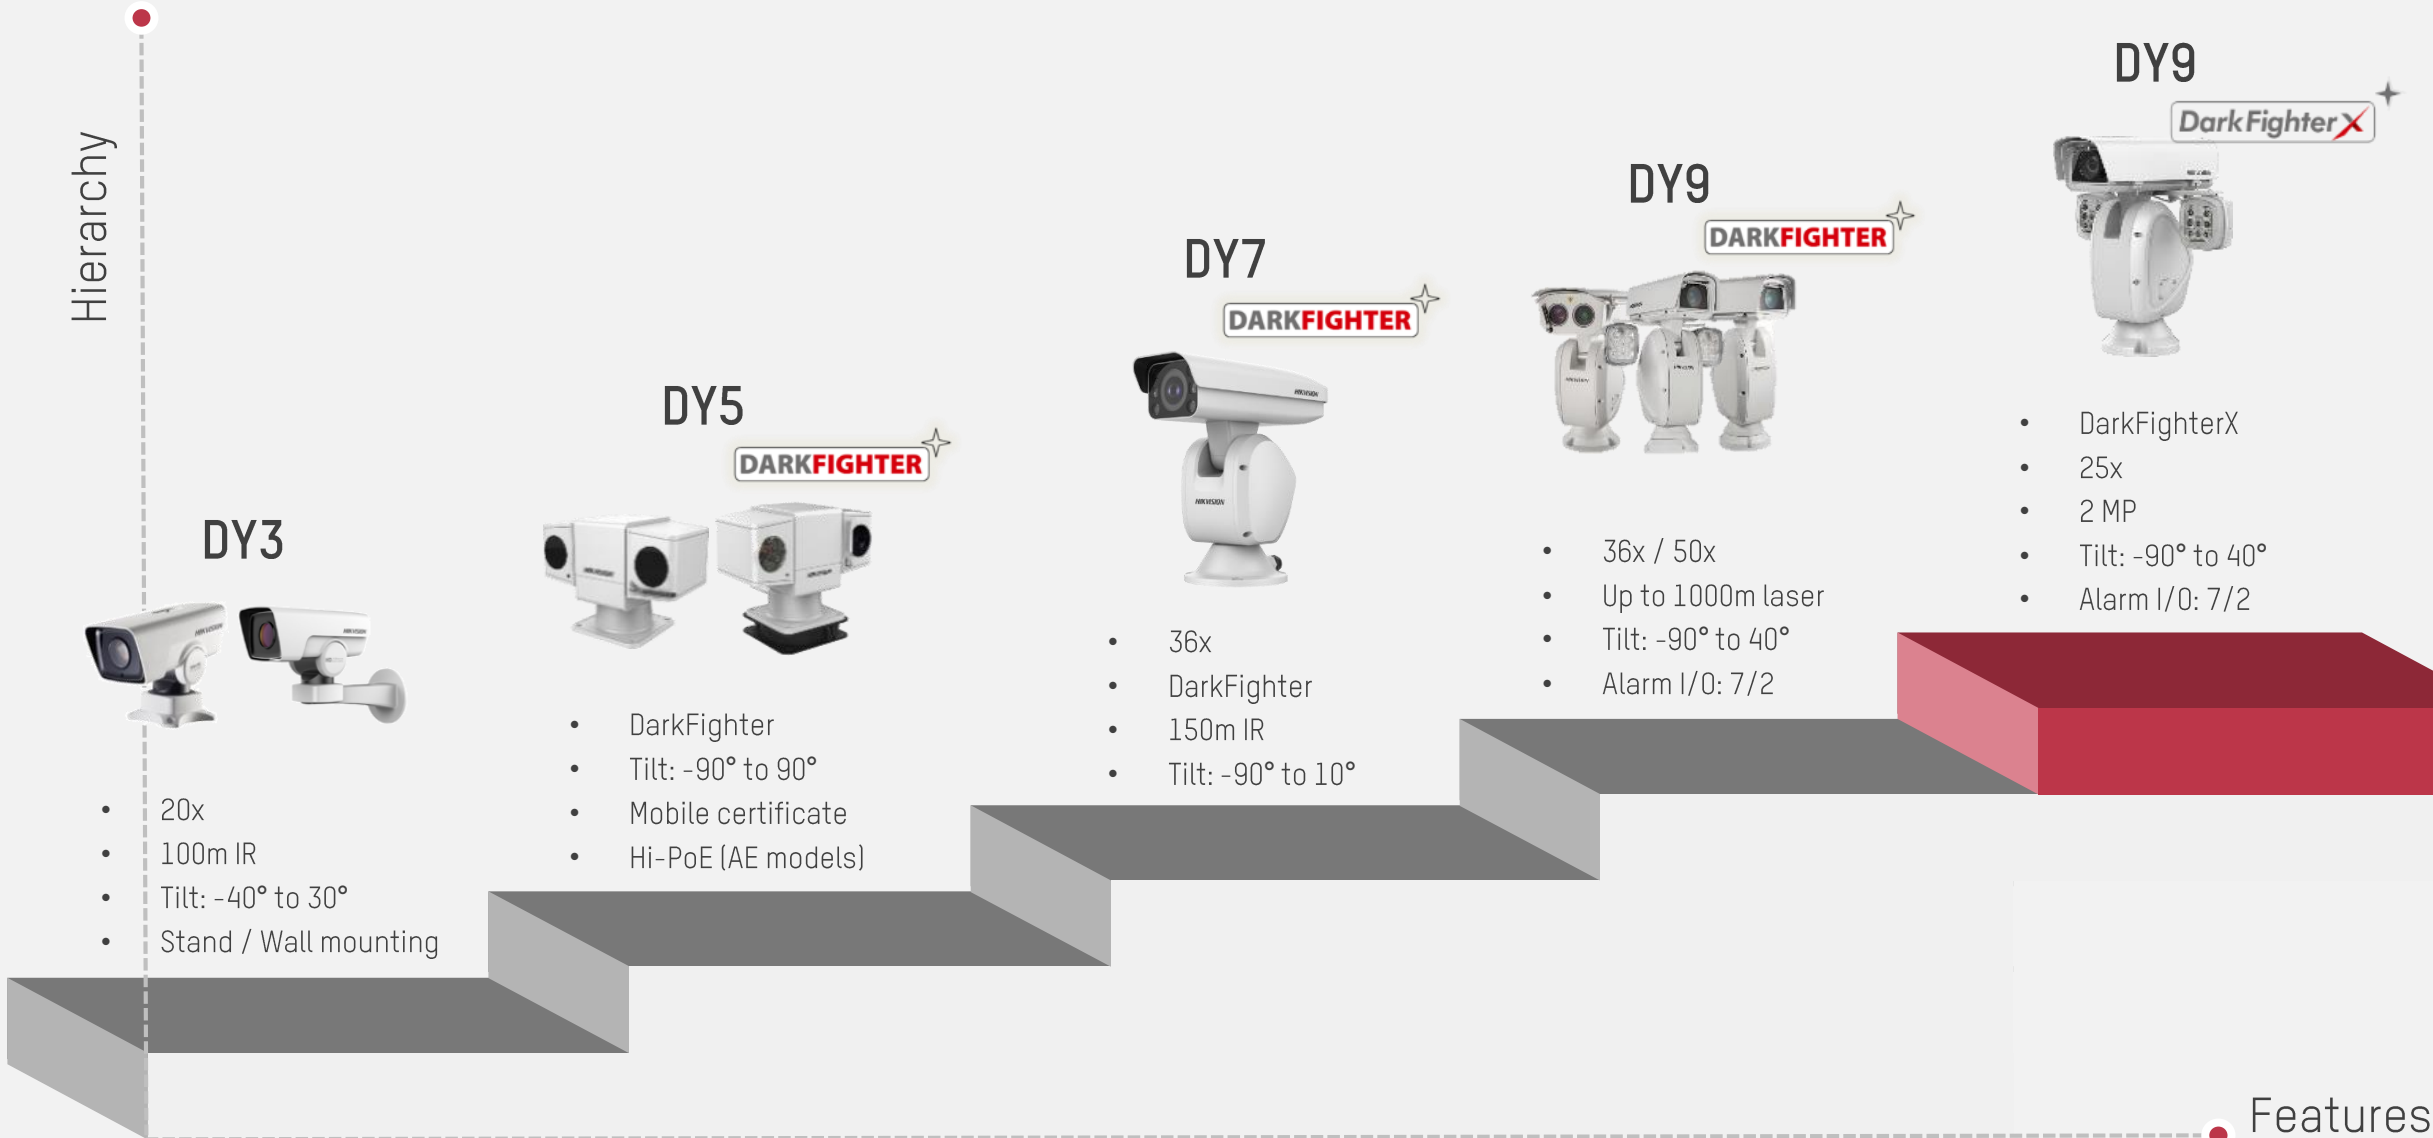

### High Resolution

2MP / 8MP / 12MP / 16MP / 32MP

# Positioning System

Hierarchy

# Network Video Recorder

## Acusense series

Based on deep learning algorithm  
Facial recognition / High accurate perimeter detection

## DeepinMind series

Based on deep learning algorithm  
Facial recognition / High accurate perimeter detection

### Highlights

- **High Stability:** ANR, N+1 backup, RAID, Dual OS
- **High Security:** AES encryption
- **High adaptability:** Channel-zero live view, dual-stream recording
- **Ultra HD output:** HDMI 2.0, 4K (3840\*2160 @60fps)
- **PoE:** plug-in free solution
- **Friendly interface:** NVR 4.0, auxiliary menu, custom split live view, etc.

# Storage & Data Center

- ⚙️ Dual Storage Mode Solution
- ⚙️ Streaming Direct Storage  
Faster data retrieval with Hikvision video direct streaming
- ⚙️ High Reliability Hardware Design
- ⚙️ Higher System Availability Design  
Dual layer storage solution for multiple sites project
- ⚙️ Super N+1  
Failover for greater reliability
- ⚙️ VRAID (RAID5+)  
Super recording continuity

## PART TWO

---

# CCTV Turbo HD Products

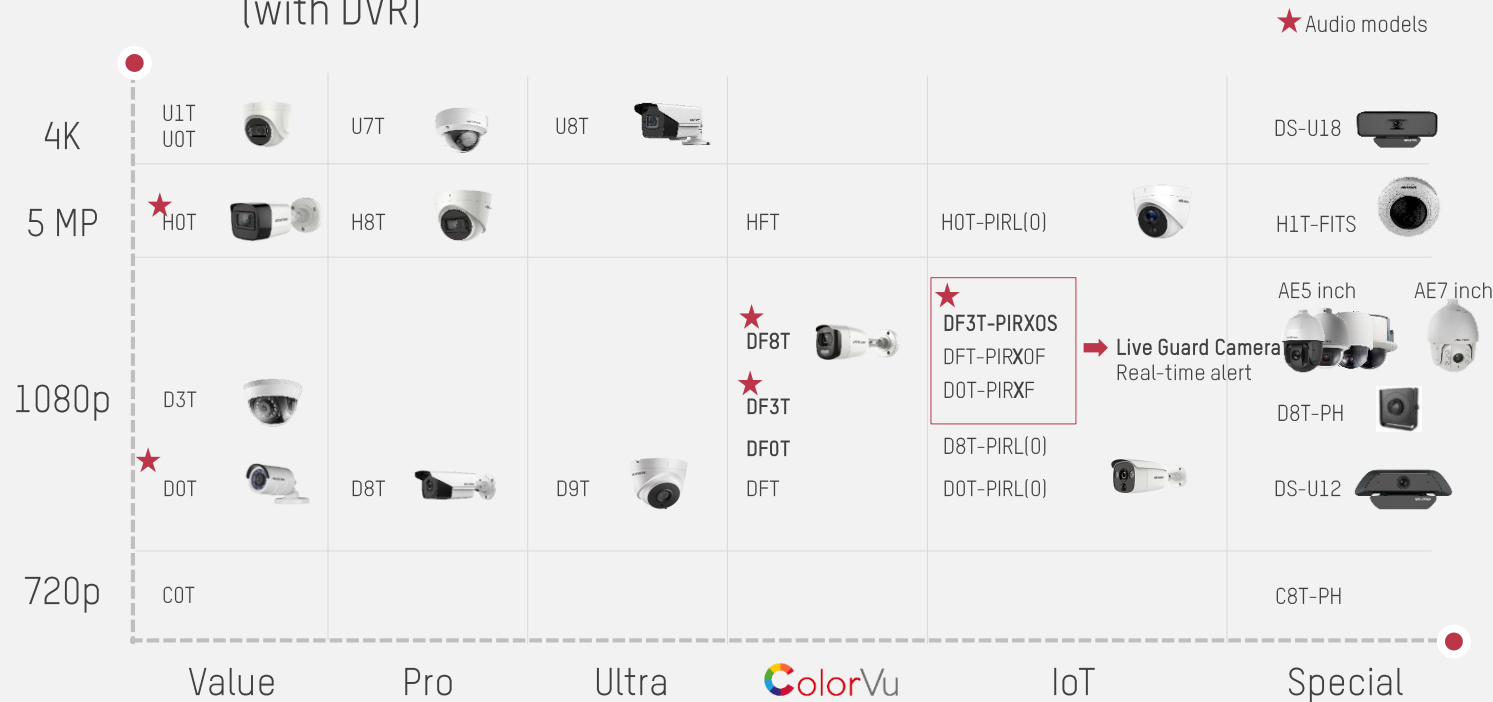

- TURBO HD Camera
- TURBO HD DVR

# TRUBO HD Camera

## Features

- **ColorVu:** color view, the 24/7 chromatic imaging technology improves video surveillance quality (DxFT)
- **Live Guard Camera:** 3 built-in voice broadcasts, 1 voice broadcast customization by Hik-Connect, Red and blue strobe light alarm, audio alarm
- **Audio over Coaxial:** Built-in dual mic, Dual noise reduction (with DVR)

- 2/5/8 MP resolution
- Fixed lens / vari-focal lens( auto-focus )
- Ultra-low light technology
- ColorVu technology
- DWDR / True WDR
- 4 in 1( four switchable outputs of CVI/AHD/CVI/CVBS)
- EXIR 2.0, IP67, IK10
- Long distance transmission up to 1200 m
- Easy installation by applying PoC
- PIR detection (PIR series)
- Strobe light alarm (PIR series)

# TRUBO HD DVR

## Highlights

- **High resolution:** 8 MP @ 8fps; 5 MP @ 12fps; 4 MP @ 15fps; 3 MP @ 18fps; 1080p; 1080p Lite
- **High efficient encoding:** H.265 Pro+, H.265+ / H.265, H.264+ / H264
- **5 in 1:** HDTVI, CVI, CVBS, AHD, IP
- **RAID:** RAID 0, RAID 1, RAID 5, RAID 6, RAID 10
- **AcuSense technology:** False alarm filter & Quick target search, Based on Human body & vehicle recognition
- **Smart Analysis:** Line crossing / intrusion detection
- **ATM smart analysis:** panel / environment / human face / safety cabin
- **HVR 4.0 (New GUI)**
- **POC:** Power over coaxial, one cable solution, easy installation

## Temperature Screening

- Measure Human's forehead temperature
- Accurate, Fast
- Non-contact
- Man-resource reduced
- Germanium lens, uncooled focal plain arrays
- 160\*120, 384\*288, 640\*512 resolution, 17μm pixel pitch
- NETD<= 40mK

## Thermography

- Detect the temperature exception
- Detect the obvious flame
- Prevent the fire at an early stage
- Double check if the fire exists
- Germanium lens, uncooled focal plain arrays
- 160\*120, 384\*288, 640\*512 resolution, 17μm pixel pitch
- NETD<= 40mK

# Thermal Products

## Commercial Vision

- Handheld Monocular: hotspot tracking and video recording with far detective range.
- Thermal Scope: Aseismic design, shutter-less technology
- Handheld Binocular: large detective range, bi-spectrum fusion, Pic in Pic etc.
- Camera module: 3rd-party integration, shutter-less technology
- Multi-functional Binocular: GPS, Longer range detection, Laser range etc.
- Germanium lens, uncooled focal plain arrays,
- 160\*120, 384\*288, 640\*512 resolution, 17 $\mu$ m pixel pitch
- NETD $\leq$  40mK

## Software & Tools

- Hik-Central
- Hik-ProConnect & Hik-Connect
- Tools

# Hik-Central

Hik-Central supports a professional video surveillance management system. It features strong video surveillance solutions of small - middle-large size application scenarios and easy management for end-users.

- Easy system/devices status management
- Easy & efficient alarm management
- Efficient video search & playback
- Easy footage protection, book-marking, and exportation
- Easy viewing experience
- Easy access: Mobile/Web/Control client
- Easy user and rights management

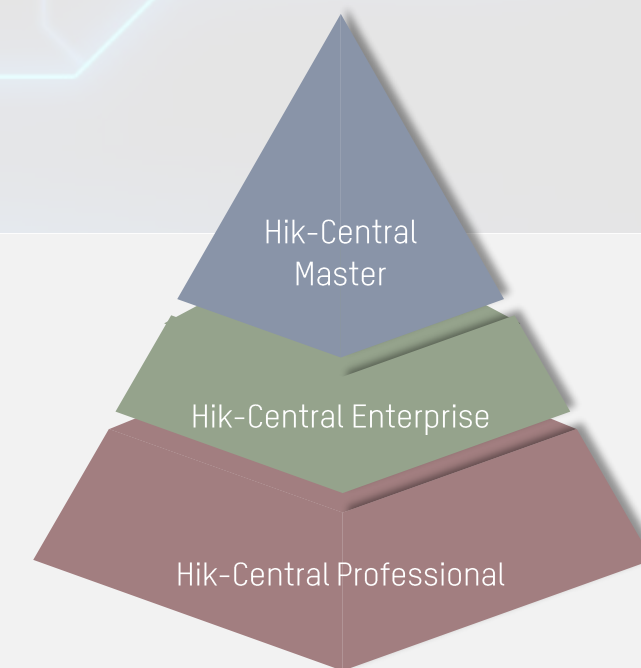

Easy & Efficient

- Video surveillance management
- Access control
- Time & Attendance
- Facial Recognition
- Video wall
- Heat map
- People Counting
- Vehicle Analysis
- ANPR, UVSS
- POS search
- ...

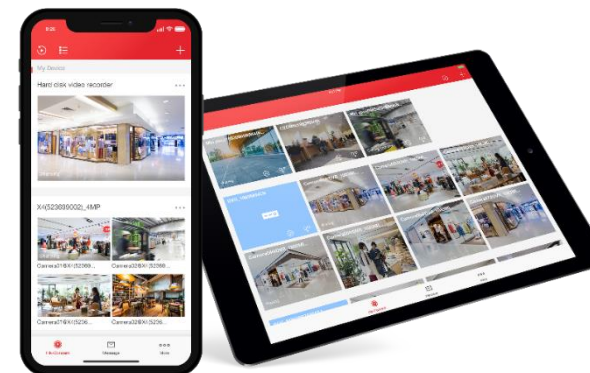

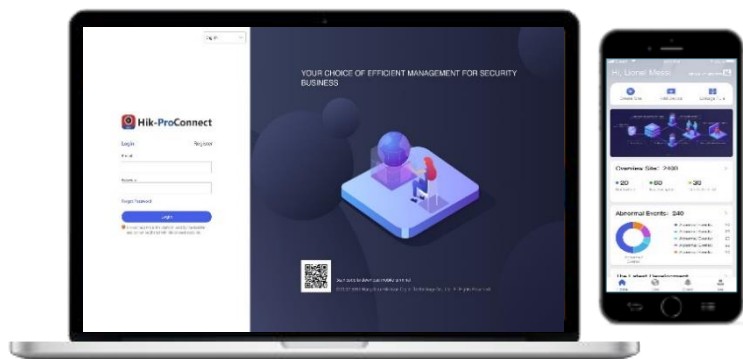

Unified Platform

- Smart Retail Solution: remote audit, BI applications, customer flow, personnel files
- Privacy Redaction Solution: target mosaic overlaid on live view & playback
- Smart Parking Lot Solution
- Video & Audio Convergence Solution: video & audio alarm linkage, one-way audio from center to IP Speaker, video-audio-fusion for evidence management
- ...

HikCentral Based Solution

# Hik-ProConnect & Hik-Connect

For installers

- Manage your clients and services
- Remote configuration for maintenance
- Migrate from Hik-Connect\*

For end users

- Manage on-premises devices
- Watch live video and playback
- Receive Alarm Notification

# Tools

## 01

### Thermal Design Tool

Thermal Design Tool is a graphical drawing application that helps you to design surveillance solution with multiple Hikvision thermal products. You can search and select a desired product to draw system diagram with product shapes. You can also edit the device quantity according to the actual needs. After the diagram is completed, you can export the diagram

## 02

### Hikvision Tools Manager

Hikvision Tools Manager is easy for you to find the links of the updated tools and documents anytime, anywhere.

## 03

### Lens Selection

The software supports configuring parameters for LED display and its associated brackets. Also, you can generate the report of detailed LED Display solutions for further view.

## 04

### Batch Configuration

The Batch Configuration software can be used to configure the parameters of one or many devices, such as network, user, and exception parameters. And the software also provides other functions, like wiper control, editing password, restoring default settings, and batch upgrading.

## 05

### VS Player

VSPlayer is a free media player designed for Mac OS. It provides an intuitive, easy to use interface to play digital media file, and supports a myriad of audio and video formats. In addition, it offers many advanced features, is extremely customizable, and is available in both Chinese and English.

## 06

### HIK Design Tool

HIK Design Tool is a graphical drawing application that helps you to design surveillance solution with multiple Hikvision products. You can search and select a desired product to draw system diagram with product shapes. You can also edit the added product properties and edit the device quantity according to the actual needs. After the diagram is completed, you can calculate the required bandwidth and storage and then export the diagram.
